

IN THE CLAIMS

Please cancel without prejudice claims 30-33.

Please amend claims 3, 5-7, 9-14, 17, 19-21, and 23-28 as indicated below.

1. (Previously Presented) A method of interfacing with a communication station, the method comprising:
  - receiving semi-structured data from a personal digital assistant (PDA) in a format native to the PDA;
  - parsing the semi-structured data to identify a type of the semi-structured data; and
  - sending data to a destination indicated by the semi-structured data if the type of the semi-structured data is destination data, the data being distinct from the semi-structured data and provided by a source other than the PDA.
2. (Original) The method of claim 1, wherein the PDA wirelessly transmits the semi-structured data, in a standard PDA format, to the communication station.
3. (Currently Amended) The method of claim 1, wherein the data is a part of an electronic document representing a physical document, and wherein the electronic document is captured without user intervention when the physical document is reproduced via a document reproduction system coupled to the communication station.
4. (Previously Presented) The method of claim 1, further comprising:
  - prompting a user to select one of the plurality of destinations if the destination data indicates a plurality of destinations, wherein the data is sent to the selected destination.
